

Environmental Policy

KPS Composting Ltd provides composting and green waste recycling services from rural premises in Sussex.

KPS Composting Ltd is committed to the protection of the environment including prevention of pollution, protection of ecosystems, enhancing landscapes and sustainable resource use.

In order to provide and maintain environmental management, KPS Composting Ltd has implemented and maintained an effective environmental management system to ensure proper operational control, processes and procedures and fulfil its compliance obligations.

We will aim to achieve this by:

- Communicating this environmental policy to all interested parties via our website
- Being committed to continual improvement of our ISO14001 registered environmental management system
- Leadership, commitment and support to ensure the effectiveness of the environmental management system
- Leadership involvement in setting and reviewing environmental objectives
- Continual improvement of the environmental management system and to enhance environmental performance through measurement, audit and review
- Working with our customers and interested parties with communication about environmental matters
- Contributing to minimise the impact of our operations on climate change, where practicable
- Working with our external providers to improve environmental management and reduce carbon emissions
- Enabling our employees to meet environmental requirements through environmental awareness
- Managing our environmental aspects and impacts by considering life cycle perspective
- To implement our environmental policies through guidance and training
- Monitor and engage with all applicable environmental legislation and compliance obligations
